## VIDEO SECURITY PRODUCTS

ENGLISH

**DOCCTEN1901**

**Catalogue 2019 / Revision 1901**

January 2019. All previous catalogues are herewith obsolete.

The information can't be either completely or partly reproduced, modified or recorded in a filing system and transmitted in any shape or with any electronic, mechanical or recording means, without the written permission of Videotec S.p.A. Specifications are subject to change without notice. Weights and dimensions are indicative.

In over thirty years in the video surveillance sector, Videotec has designed and developed a great number of products to monitor any type of external environment. Today, our company is one of the most respected suppliers in the industry.

#### HISTORY

Thanks to considerable investments in R&D, Videotec continues to offer innovation, with a constant eye on the future and new technologies. Videotec holds 19 international patents, which have truly benefitted the world of security.

#### INNOVATION

As a unique firm built to shape and enhance a select market, we strive relentlessly to boost our clients' growth and satisfaction with incessant efforts to cultivate our team's expertise, professionalism, and creativity. Thanks to our focus on clients' prosperity and well-being, all of us are better off.

#### MISSION

Videotec runs its international operations from its production and logistics headquarters in Italy. It is supported by three branches, four offices abroad and numerous other selected partners. Thanks to the well-structured distribution network and expert staff, Videotec can offer excellent pre- and post-sale service right across the world.

#### GLOBAL COMPANY

Videotec products are a perfect blend of high performance, easy installation, durability and great design, and their ISO 9001:2008 certification means that quality is guaranteed. Videotec is unique in its continuous effort to achieve the latest technological breakthroughs in order to satisfy clients and grow the business.

#### PRODUCT LINES

Videotec's specialised and certified products fulfil the requirements of the most complex video surveillance applications in all types of industrial sectors: energy, maritime and naval, transport, and critical infrastructures.

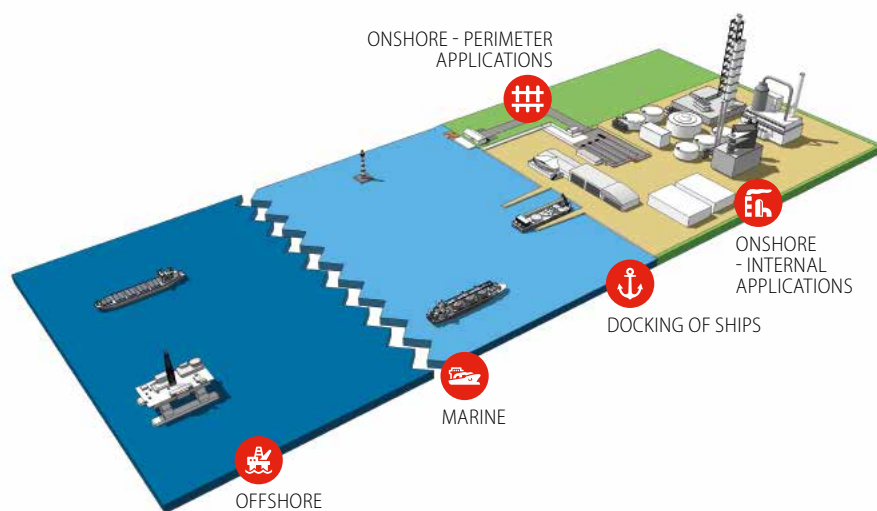

#### MARKETS

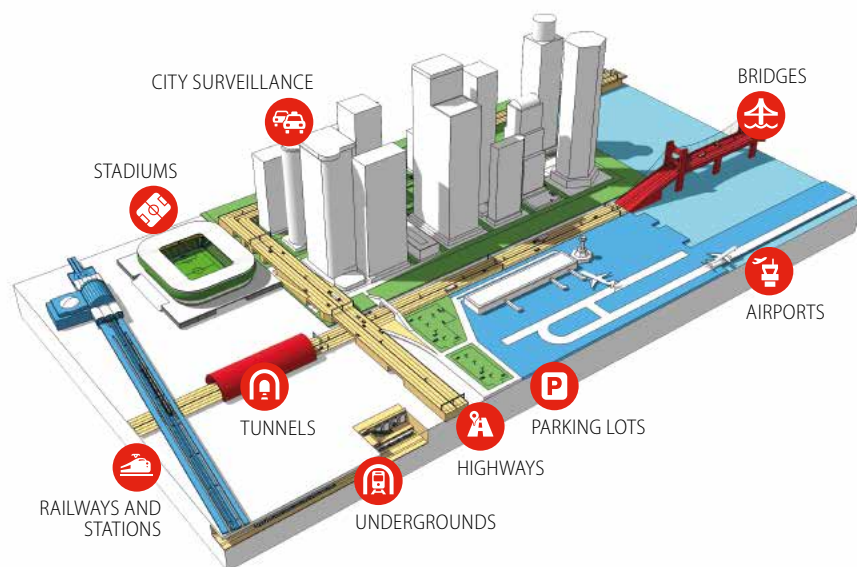

## Oil and Gas

The wide range of specialised and certified ex-proof products provides the highest degree of protection and the immediate situational awareness in areas with risk of explosion. The operator can monitor critical areas and constantly receive detailed information, quickly detect abnormal and dangerous situations and take immediate decisions, reducing the chance of accidents.

## Marine Onshore Offshore

Videotec has the global expertise to address the complex issues of maritime and industrial applications with a wide range of specialised products for professional video surveillance. Designed to withstand the most corrosive atmosphere, these AISI316L PTZ cameras and fixed cameras can be installed on board of all types of vessels such as oil tankers, container ships, LNG carriers, etc.

## Critical infrastructure and Transportation

Videotec is able to satisfy even the most complex needs related to critical infrastructures, road and motorway traffic monitoring, to public urban security and dynamic and complex outdoor environments. Clear and detailed day and night images, even on long distances, non-stop operation with zero maintaining, preset accuracy, immediate remote feedback, simplified management with remote updates, easy plug and play installation, open architecture for IP management.

## ULISSE PTZ CAMERAS AND UNITS

### ULISSE EVO

ULISSE EVO is a PTZ camera that combines high technology, competitiveness and design and guarantees the maximum level of security for monitoring urban areas, critical infrastructures, transport, traffic and railways (it complies with the standards for railway applications)

The Super low-light, Full HD, 1080p, 60 fps IP camera with 30x optical zoom and integrated Delux technology offers unbeatable clear and detailed images with vivid colours, day or night. The camera's motion detection function, with privacy masking feature, allows intelligent management of areas and immediate raising of alarms if an unwanted intrusion is detected.

ULISSE EVO offers an unrivalled corrosion resistance, thanks to the special aluminum surface treatments and the technopolymer used for its construction.

ULISSE EVO can be installed in different ways, even in the inverted position typical of the speed domes, using the large variety of brackets and adaptors available to satisfy every installation need. The brackets are also available with quick connectors for Ethernet/PoE, for power and I/O, which allow fast and easy operations in case of on-site intervention.

		ULISSE EVO
	Video output	IP video output
Camera	Type of camera	Day/Night
	Resolution	Full HD (1920x1080)
	Minimum illumination	Colour: 0.006lx B/W: 0.0006lx
	Zoom	30x (16x, digital Zoom)
	Lens	f= from 4.5mm (wide) up to 135mm (tele), from F1.6 up to F9.6
Mechanical	Material	Constructed from aluminium and tecnopolymer
	Unit weight	7.1kg (15.6lb) (7.4kg (16.3lb) with LED illuminator)
	Painting	Epoxy-polyester powder painted, standard colours RAL9002 or RAL9005
	Horizontal rotation	360°, continuous rotation
	Vertical rotation	From -90° up to +90°
	Horizontal speed (variable)	From 0.1°/s up to 250°/s
	Tilt speed (variable)	From 0.1°/s up to 250°/s
	Position accuracy	0.05°
	Possibility of installing LED illuminators	√
	Glass cleaning device	Integrated wiper
Electrical	Supply voltage/Current consumption	24Vac, 5A, 50/60Hz 24Vdc, 5A PoE 90W
	Power consumption	70W max (peak on switch-on, with illuminator and heating on)
Software	Communication protocol	ONVIF, Profile S and Profile Q
	Video compression	H.264/AVC, MJPEG, JPEG, MPEG4
Environment	Operating temperature	From -40°C (-40°F) up to +65°C (149°F) (continuous working)
	Relative humidity	From 10% up to 100%
	IP protection degree	IP66, IP67, IP68
	Compliance to railway applications	Compliance to railway applications standard EN50121-4 (the product requires the filter accessory SURGEPR)

## ULISSE EVO - ACCESSORIES

UEI8		<b>IR illuminator 850nm for ULISSE EVO</b> Standard colours: RAL9002 (UEI8AA), RAL9005 (UEI8FA)
UEI9		<b>IR illuminator 940nm for ULISSE EVO</b> Standard colours: RAL9002 (UEI9AA), RAL9005 (UEI9FA)
UEIW		<b>White light illuminator for ULISSE EVO</b> Standard colours: RAL9002 (UEIWAA), RAL9005 (UEIWFA)
OHEP90IN		<b>PoE (90w) Power Injector with one channel</b> For installations indoors (OHEP90INJ) For installations outdoors (OHEP90INJO)
SURGEPR		<b>Lightning surge protection device</b> For railway applications (in compliance with EN50121-4)
WASPT		<b>Washer pump and 5 or 23 liter tank</b> Polyethylene tank with stainless steel cage Delivery head: 5m (16ft), 11m (36ft) or 30m (98ft) Versions with alarm for the lack of liquid in the tank Also for third-party products Operating temperature: from -10°C (14°F) up to +60°C (140°F) Available voltages: 230Vac, 120Vac, 24Vac
WASNX		<b>Washer pump with solenoid valve for stainless steel products</b> Enclosure made of stainless steel AISI 316L Delivery head: up to 20m (66ft) Water tank capacity: 10l (2.6gal) Suitable for Videotec products or with third-party products Operating temperature from -20°C (-4°F) up to +60°C (140°F) Available voltages: 230Vac, 120Vac, 24Vac

## ULISSE EVO - BRACKETS

UEBP0		<b>Parapet bracket with internal cable channel for ULISSE EVO</b> Standard colours: RAL9002 (UEBP0AA), RAL9005 (UEBP0FA)
UEBP4		<b>Parapet bracket with quick connectors for ULISSE EVO</b> RJ45 (Ethernet and PoE)+4 poles with screw terminal (power supply and I/O) Standard colours: RAL9002 (UEBP4AA), RAL9005 (UEBP4FA)
UEBP7		<b>Parapet bracket with quick connectors for ULISSE EVO</b> RJ45 (Ethernet and PoE)+7 poles to weld (power supply and I/O) Standard colours: RAL9002 (UEBP4AA), RAL9005 (UEBP4FA)
UEBW		<b>Wall assembly support for ULISSE EVO</b> Standard colours: RAL9002 (UEBWAA), RAL9005 (UEBWFA)
UEAP		<b>Pole mount adaptor</b> Made of AISI 316L electropolished stainless steel For pole diameters: from 60mm (2.36in) up to 200mm (7.9in) Dimensions: 121x85mm (4.7x3.3in)
UEAC		<b>Corner mount adaptor</b> Made of AISI 316L electropolished stainless steel Dimensions: 120x220mm (4.7x8.7in)
UEAW		<b>Counter-plate</b> Made of AISI 316L electropolished stainless steel Dimensions: 200x200mm (7.9x7.9in)

## ULISSE PTZ CAMERAS AND UNITS

### ULISSE

The robust ULISSE PTZ unit guarantees maximum surveillance coverage in any type of external environment - however challenging - without need for maintenance. The ULISSE PTZ brings together high speed and pin-point accuracy, whether being operated manually or in patrol mode.

ULISSE2 is a Full-IP PTZ unit that boasts outstanding functional performance and an ability to manage all third-party ONVIF-S IP cameras. This is done by directly accessing the installed camera via a browser, with a single IP address, allowing control over configuration and diagnostics. Thanks to the ONVIF-S protocol, and its ability to work with all the most popular VMS, ULISSE2 is able to control everything – from camera functions and positioning, to the wiper, washer pump, pre-sets, illuminators and setup – via the network. ULISSE2 is also compatible with 4K cameras.

There are several models available that cater to all requirements, depending on the size of the camera and lenses, or whether a thermal camera is necessary. To guarantee detailed images are captured even at night, there are units available with built-in LED illuminators, with infrared or white light. A wiper option is also always available.

## ULISSE PTZ CAMERAS AND UNITS

### ULISSE RADICAL

ULISSE RADICAL is a ready-to-use, Full HD, network PTZ camera system that unites exceptional lens and camera combinations, and is pre-configured and pre-assembled in the factory to ensure that it works perfectly, with a simplified installation process.

The lens and camera are pre-configured during the production phase so the user needs only to connect it to a power supply and network. Then, just a couple of clicks are required to complete the simple final setup, adapting it to the user's requirements.

With the THERMAL model, the PTZs can detect people and objects across a large visual range and in the most difficult environmental conditions, such as varying levels of light (including total darkness), or where there is thick smoke, rain and dust.

The ULISSE RADICAL PTZ range guarantees the very best levels of constant surveillance in security applications such as airports and military installations, around perimeters and borders, in coastal and maritime zones, on motorways, in tunnels and for environmental monitoring activities and fire detection.

## ULISSE COMPACT

ONVIF® | S Q

deLUX  
technology

ULISSE COMPACT is an advanced range of compact PTZ cameras, designed to ensure dynamic and continuous surveillance of large outdoor areas and to withstand difficult environmental conditions, without the need for maintenance.

The high performance levels and the wide range of models and options mean this exceptional PTZ is the ideal choice for any requirement when it comes to the external monitoring of infrastructures and city centres, of traffic on the road and highways, and of complex scenes in general.

The DELUX imaging and encoder technology, thanks to the superior light sensitivity of the sensor, can make bright recordings with sharp, clearly defined colours in the very low light conditions typically found at night, working at as low as 0.006 lux (0.0006 lux in black and white).

Amongst the available options are integrated LED illuminators, a wiper to clean the glass and a large range of tanks with washer pumps, with various capacities and heads.

## STAINLESS STEEL PTZ CAMERAS

### NXPTZ

**deLUX**  
technology

The products available in the NXPTZ range of PTZ cameras are specialised for professional video surveillance. They meet the complex needs of both offshore and onshore maritime applications and industrial and corrosive environments of all kinds. These PTZs guarantee high functional performance thanks to the extreme precision of the construction process and the high-quality stainless steel, which is completely resistant to rust and corrosion. Its IP66/IP68 rating means that the NXPTZs are completely protected against the elements and temporary immersion in water, while the IP69 rating allows it to be cleaned with high-pressure, high-temperature water jets.

The DELUX imaging and encoder technology, thanks to the superior light sensitivity of the sensor, can make bright recordings with sharp, clearly defined colours in the very low light conditions typically found at night, working at as low as 0.006 lux (0.0006 lux in black and white).

The NXPTZ series products are Lloyd's Register Type Approval System Test Specification Number 1 certified and therefore can be used in Marine and Offshore applications for environmental categories ENV1, ENV2, ENV3 and ENV5.

## EXPLOSION-PROOF PTZ CAMERAS

### MAXIMUS MPX

ONVIF® | S Q

The MAXIMUS MPX range of explosion-proof PTZ cameras guarantees exceptional performance when monitoring critical processes in areas where there is a risk of explosion. It is, therefore, the ideal choice for video surveillance of refineries, petrochemical plants, offshore oil rigs or across chemical industries (Zone 1 and 2, Group IIC T6 for gas, and Zone 21 and 22, Group IIIC T85°C for dust).

The DELUX imaging and encoder technology, thanks to the superior light sensitivity of the sensor, can make bright recordings with sharp, clearly defined colours in the very low light conditions typically found at night, working at as low as 0.006 lux (0.0006 lux in black and white).

The MAXIMUS MPX series products are Lloyd's Register Type Approval System Test Specification Number 1 certified and therefore can be used in Marine and Offshore applications for environmental categories ENV1, ENV2, ENV3 and ENV5.

OCABLMPX-OCABLMPXARM		<b>Multi-polar cables for explosion-proof Pan &amp; Tilt</b> Pre-cabled for Ethernet, video, I/O and telemetry connections Equipped with barrier cable gland Resistant to oil, flames and ultra-violet rays Available in an armoured and unarmoured version Designed for potentially explosive zones Available in 2 lengths, standard or customised length	√	√	√
CMS-CMA		<b>Armoured and unarmoured multi-polar cables</b> Prepared for Ethernet, video, I/O and telemetry connections Resistant to oil, flames and ultra-violet rays Available in an armoured and unarmoured version Available in black or blue Designed for potentially explosive zones	√	√	√
WASEX		<b>Washer pump with ex-proof solenoid valve</b> Delivery head: up to 20m (66ft) Water tank capacity: 10l (2.6gal) Suitable for MAXIMUS series or with third-party products Power supply: 24Vac or 24Vdc Consumption: 5W	√	√	√
MAXIMUS MBA		<b>Explosion-proof communication box in aluminium</b> Certifications for use in Zones 1 and 2, IIC T5 or T6 Group (Gas) and in Zones 21 and 22, IIIC T100°C or T85°C Group (Dust) Embedded Ethernet switch with four channels 2 bypass for analog video signals with BNC connectors 2 bypass for I / O signals with multi-pin connectors Input voltages available: 230Vac, 120Vac, 24Vac	√	√	√
FM1010		<b>EMC filter for Marine certification</b> The filter must be connected to the power line of the equipment The filter is not explosion-proof certified Implement adequate protection if used in potentially explosive classified environments (e.g. Atex) Electrical data: from 0 up to 250V DC/AC 50/60 Hz, 6A	√	√	√
MAXIMUS MPX - BRACKETS					
MPXWBA		<b>Wall mount bracket</b> Made of AISI 316L electropolished stainless steel Load rating: 40kg (88lb) Length: 400mm (15.7in) Can be coupled with modular components (MPXCW, MPXCOL)	√	√	√
MPXCOL		<b>Pole mount adaptor</b> Made of AISI 316L electropolished stainless steel For pole diameters: from 110mm (4.3in) up to 150mm (5.9in) Load rating: 50kg (110lb) Dimensions: 198x182mm (7.8x7.2in)	√	√	√
MPXCW		<b>Corner mount adaptor</b> Made of AISI 316L electropolished stainless steel Load rating: 50kg (110lb) Dimensions: 335x186mm (13.2x7.3in) Suitable for: MPXWBA, MHXWBS	√	√	√
MPXWBTA		<b>Parapet or ceiling mounting bracket</b> Made of AISI 316L electropolished stainless steel Load rating: 40kg (88lb) Dimensions: Ø 238mm (9.4in)	√	√	√

## EX-PROOF CAMERAS AND HOUSINGS

### MAXIMUS MMX

The explosion-proof Full HD camera MAXIMUS MMX is perfect for efficient video surveillance and control of processes in hazardous environments where the atmosphere is potentially explosive due to the presence of inflammable gases or dust, typical of the Oil&Gas, marine or industrial and foodstuff sectors.

The Full HD, 1080p camera, with 3x or 10x motorised zoom lens, offers multiple video streams (H.264/AVC, MJPEG, JPEG, MPEG4) and provides exceptional image quality, picking out every detail in a scene, even in the harshest environmental conditions.

An absolute advantage offered by this camera is its extremely easy and safe installation. The camera can be supplied with multi-polar cabling. The camera can also be powered in PoE+, thereby allowing further simplification of installation operations. The camera is supplied with supports for wall, ceiling and railing installation and with a sunshield.

The MAXIMUS MMX product is Lloyd's Register Type Approval System Test Specification Number 1 certified and therefore can be used in Marine and Offshore applications for environmental categories ENV1, ENV2, ENV3 and ENV5.

## EX-PROOF CAMERAS AND HOUSINGS

### MAXIMUS MVX

The MAXIMUS MVX range of cameras offers effective video surveillance and process control in critical environments where the air is potentially explosive due to the presence of flammable gases or dust. This is something commonly seen across the Oil & Gas, marine and industrial sectors. The MVX range was designed to meet the most stringent international standards, achieving the required levels of certification for use in Zones 1 and 2 (Gas), Group IIC T5 and 6, and Zones 21 and 22 (Dust), Group IIIC T100°C and T85°C.

The DELUX imaging and encoder technology, thanks to the superior light sensitivity of the sensor, can make bright recordings with sharp, clearly defined colours in the very low light conditions typically found at night, working at as low as 0.006 lux (0.0006 lux in black and white).

The extensive temperature range of certification, from -60°C to 65°C with a sophisticated cold start system, offers the possibility of working in extreme environments.

The MAXIMUS MVX series products are Lloyd's Register Type Approval System Test Specification Number 1 certified and therefore can be used in Marine and Offshore applications for environmental categories ENV1, ENV2, ENV3 and ENV5.

## EX-PROOF CAMERAS AND HOUSINGS

### MAXIMUS MHX

The MAXIMUS MHX range of explosion-proof housings have been designed to meet the strictest standards required for installation in hazardous environments where gases and flammable dusts may be present (Zone 1 and 2, Group IIC for gas and Ex tb Zone 21 and 22 for dust). Made entirely of electro-polished AISI 316L stainless steel, these housings allow the camera inside to work perfectly in harsh environments, such as refineries, pipelines, tankers, off-shore rigs and industrial processes.

Equipped with heating, the MHX housing has a corresponding installation and working temperature range of -40 °C to +60 °C. The MHX model with a wiper is equipped with an in-built telemetry receiver that allows data to be received, via the serial RS-485 interface, so that the wiper and washer pump can be operated remotely, and external illuminators may be lit. Wiring the device is made easier thanks to removable connectors on the connection circuit. The MHXT model features a window made of germanium, a material that provides perfectly clear vision for thermal cameras.

## EX-PROOF CAMERAS AND HOUSINGS

**EXH**

IP66

The robust, explosion-proof EXH range of housings have been designed for use in areas where there is a risk of explosion and they are certified Ex d for Zones 1 and 2, Group IIC (Gas) and Ex tb for Zones 21 and 22 (Dust).

These housings are made entirely of strong, anti-corrosion aluminium. All its components are oven-fire painted and provide ultimate resistance to ultraviolet rays, saline mist and polluting agents that are present in the surrounding atmosphere.

The EXH-G model features a window made of germanium, a material that provides perfectly clear vision for thermal cameras. Heating is provided as standard, while the sunshield is optional. Also available are a wide range of armed or unarmed cable glands for various diameter cables.

## STAINLESS STEEL HOUSINGS AND CAMERAS

**NVX**

ONVIF® | S Q

**deLux**  
technology

NVX is an IP FULL HD super low-light camera with high corrosion resistance. This camera incorporates the DELUX imaging and encoding technology for recording incredibly clear colour video day or night.

The NVX external housing is made entirely from AISI316L stainless steel and has a compact and lightweight design that, along with the quick connectors, helps installation and maintenance. The modular support for wall, ceiling or parapet mounting is a standard feature.

It is available a version with integrated wiper and a version with polycarbonate window for applications in the food industry.

NVX has exceptional corrosion resistance, a wide operational temperature range and IP66/IP67/IP68/IP69 protection. These features mean it is well suited to marine and industrial areas, motorway tunnels and rail applications.

The NVX series products are Lloyd's Register Type Approval System Test Specification Number 1 certified and therefore can be used in Marine and Offshore applications for environmental categories ENV1, ENV2, ENV3 and ENV5.

		NVX

UEAW		<b>Counter-plate</b> Made of AISI 316L electropolished stainless steel Dimensions: 200x200mm (7.9x7.9in)

## STAINLESS STEEL HOUSINGS AND CAMERAS

**NXM**  
**NXL**  
**NXW**

IP66 IP67 IP68 IP69

The NX series housing was designed to guarantee perfect and constant functionality of the cameras in more extreme and corrosive environmental conditions, such as marine, industrial environments and motorways. These housings offer reliability and strength thanks to the maximum precision used in the manufacturing processes and the quality of the stainless steel AISI316L, completely resistant to rust and corrosion.

The line includes different models to meet every application need: liquid cooled housings and with glass resistant to very high temperatures or for thermal video, housings suitable for immersion in water, with air barriers for cleaning or cooling of the front glass and housings for Hi-PoE cameras with power supply via Ethernet cable.

These housings can be used in motorway tunnels and in areas with high atmospheric pollution, in submarine monitoring systems, in control of industrial processes, in blast furnaces and foundries.

The NXM36 product is Lloyd's Register Type Approval System Test Specification Number 1 certified and therefore can be used in Marine and Offshore applications for environmental categories ENV1, ENV2, ENV3 and ENV5.

## GENERAL PURPOSE CAMERA HOUSINGS

**HOV  
PUNTO  
VERSO  
HEG  
HEK, HEB, HGV**

The wide range of housings, made from aluminium or innovative plastic materials, meets every requirement for use in external environments. The numerous supports and adapters, with or without cable protection, provide a solution for any type of mounting. There are also a large variety of accessories available: heating, camera power supply, tamper switch, fans and filters, wipers and several glass cleaning kits. The POLAR model protects the camera inside against temperatures down to -55 °C.

The housings that have intelligent IPM management technology, developed by Videotec for Hi-PoE cameras, use the Ethernet cable's power as the only power supply for all the managed devices. The Hi-PoE system can independently measure all available options, such as heating, fans and illuminators, maintaining a balance of power and, thus, making sure that it is adequately distributed to all connected devices. The result is a network which is more reliable and flexible, simplified installation operations and also reduced costs.

P&T MOTORS

## PTH300

IP66

The outdoor Pan&Tilt devices are designed and tested for the use in the severest operation conditions and under continuous stress. PTH300 allows a maximum horizontal speed of 6°/s, a vertical speed of 3°/s and a horizontal rotation of 330°, vertical 360°. The Autopan function is possible for limited periods of time. A preset version is also available, equipped with potentiometers, which allows the presets by means of our telemetry systems.

Die-cast corrosion-proof aluminium.

A wide range of control systems is available, from a simple desktop controller to the most advanced range of control keyboards and telemetry receivers with microprocessors.

PTH300		<b>Outdoor P&amp;T motor</b> Constructed from corrosion-proof aluminium For loads up to 12kg(26lb) balanced IP66 Optional preset Standard autopan function 24Vac and 230Vac, 50/60Hz versions Internally adjustable horizontal and vertical limit switches Horizontal fixed speed 6°/s, vertical fixed speed 3°/s Not compatible with HGV

WCPA		<b>Reinforcing support plate for poor consistency walls</b> Made of aluminium Available with a supporting box with internal cable channel Load rating: 50kg (110lb)

## STAINLESS STEEL P&T MOTORS

# NXPTH

IP66

IP67

NXPTH Pan & Tilt, together with the stainless steel housing, was built to withstand the most severe and corrosive environmental conditions such as offshore, marine environments and industrial applications.

Each detail has been carefully analysed, resulting a reliable product suitable for highly corrosive environments. The accurate mechanical construction and reliable motors utilized reduce the need of maintenance even in situations of heavy mechanical stress.

The NXPTH allows a maximum horizontal/vertical rotation of 340° and is equipped with potentiometers which allow use of the preset function.

## NXPTH

NXPTH		<p><b>Stainless steel P&amp;T motor</b></p> <p>Made of AISI 316L electropolished stainless steel IP66/IP67 Horizontal fixed speed 5°/s, vertical fixed speed 3°/s Max. load 40kg (88lb) balanced Preset function Versions 24Vac and 230Vac, 50/60Hz Compatible with: NXM, NXM36, NXM36 Hi-PoE, NTM, NXL, NTL</p>

## TELEMETRY

**DTRX3**  
**DTMRX2**  
**DCRE485**

A wide range of telemetry receivers have been designed for outdoor Pan & Tilt remote control, which includes the most basic to the most complete models, and enable Pan & Tilt function management and motorised lenses.

The DTRX3 is a digital receiver, controlled by a microprocessor with 17 functions, for remote control of a Pan & Tilt motor, motor-driven zoom lens, wiper, washer and 4 auxiliary contacts.

DCRE485 is a serial data distributor used to increase the lines of DTRX3 and DTMRX2 receivers. The appliance gives serial data back on 8 outputs at the same time, allowing star configurations.

DTRX3		<p><b>Telemetry receiver for P&amp;T, 17 functions</b></p> <p>11 standard functions for the control of P &amp; T motors and zoom lenses, 6 functions for auxiliary services (2 x dry contacts, 1 x 12Vdc, 1x 24Vac, wiper and washer)</p> <p>Maintenance of configuration even in case of power loss</p> <p>Selectable communication: RS-232 and RS-485</p> <p>Selection of the P&amp;T motor power supply (24Vac or 230Vac) and camera (12Vdc or 24Vac)</p> <p>Compatible with protocol PELCO D</p>
DTMRX2		<p><b>Telemetry receiver for P&amp;T, 12 functions</b></p> <p>11 standard functions for the control of P&amp;T motors and zoom lenses, 1 function for the control of one auxiliary service (dry contact)</p> <p>Selectable communication: RS-232 and RS-485</p> <p>Aux can be used for wiper operation</p> <p>Compatible with protocol PELCO D</p>
DCRE485		<p><b>Serial data distributor for P&amp;T</b></p> <p>1 input, 8 serial outputs in RS-485</p> <p>Serial data back on eight outputs at the same time</p> <p>max. connection distance 1200m (3937ft)</p>

## MULTI-POLAR CABLES

The armoured and unarmoured multi-polar cables are prepared for Ethernet, video, alarms and telemetry connections.

These cables have been designed for use in hostile environments and potentially explosive atmospheres. They are resistant to oil, flames and ultra-violet rays and hence recommended for use with our ex-proof and stainless steel cameras.

They are available in black and blue and are sold by the metre.

## CMS, CMA

CMS		<b>Unarmoured multi-polar cables</b> Prepared for Ethernet, video, I/O and telemetry connections Resistant to oil, flames and ultra-violet rays Available in black or blue Designed for potentially explosive zones Unarmoured black cable (CMSN2200): 2 Ethernet cables, 3 power supply conductors, 2 coaxial video cables, 15 alarm conductors, relay and telemetry Unarmoured blue cable (CMSB2200): 2 Ethernet cables, 3 power supply conductors, 2 coaxial video cables, 15 alarm conductors, relay and telemetry
CMA		<b>Armoured multi-polar cables</b> Prepared for Ethernet, video, I/O and telemetry connections Resistant to oil, flames and ultra-violet rays Available in black or blue Designed for potentially explosive zones Armoured black cable (CMAN1200): 1 Ethernet cable, 3 power supply conductors, 1 coaxial video cable, 7 alarm conductors, relay and telemetry Armoured black cable (CMAN0400): 1 Ethernet cable, 3 power supply conductors Armoured blue cable (CMAB1200): 1 Ethernet cable, 3 power supply conductors, 1 coaxial video cable, 7 alarm conductors, relay and telemetry

## WAS WASHING SYSTEMS

# WAS, WASPT WASN WASEX

Videotec cleaning kits adapt to any Videotec PTZ camera or housing that is equipped with a wiper, and are also compatible with third-party products.

The kit comprises a tank for the washing fluid (various sizes, from 5 to 23 L) and an integrated pump with head up to 30 m of range. With the use of antifreeze, the minimum working temperature is as low as -25 °C.

The stainless steel models were designed for special applications such as those onshore/offshore, industrial or in environments where external agents are particularly corrosive. The explosion-proof certified version allows use in environments at risk of explosion.

The WASEX series products and the product WASPT0V23L11M00 in the WASPT series are Lloyd's Register Type Approval System Test Specification Number 1 certified and therefore can be used in Marine and Offshore applications for environmental categories ENV1, ENV2, ENV3 and ENV5.

# WAS-WASPT, WASNX, WASEX

WAS-WASPT		<b>Washer pump and 5 or 23 liter tank</b> Polyethylene tank with stainless steel cage Delivery head: 5m (16ft), 11m (36ft) or 30m (98ft) Versions with alarm for the lack of liquid in the tank Also for third-party products Operating temperature: from -10°C (14°F) up to +60°C (140°F) Available voltages: 230Vac, 120Vac, 24Vac IP protection degree: IP66 (only products with 5m (16ft) or 11m (36ft) delivery head) Marine Certification: Lloyd's Register Marine Type Approval (only valid for the pump with a 23l tank and 11m delivery head in the WASPT series)
WASNX		<b>Washer pump with solenoid valve for stainless steel products</b> Enclosure made of stainless steel AISI 316L Delivery head: up to 20m (66ft) Water tank capacity: 10l (2.6gal) Suitable for Videotec products or with third-party products Operating temperature from -20°C (-4°F) up to +60°C (140°F) Available voltages: 230Vac, 120Vac, 24Vac IP protection degree: IP65 (solenoid valve only, enclosure not rated)
WASEX		<b>Washer pump with ex-proof solenoid valve</b> Delivery head: up to 20m (66ft) Water tank capacity: 10l (2.6gal) Suitable for MAXIMUS series or with third-party products Power supply in 24Vac/dc, 5W max Certifications: EAC EX 1 Ex d IIC T4 Gb X, IP66 -40°C/+60°C Ex tb IIIC T130°C Db X, IP66 -40°C/+60°C Certifications Solenoid valve: ATEX (EN 60079-0: 2009, EN 60079-1: 2007, EN 60079-31: 2009) Ex II 2GD    Ex d IIC T6 or T5 or T4 Gb Ex tb IIIC T80°C or 95°C or T130°C Db IP66, Tamb -40°C to +35°C or +50°C or +60°C INMETRO Ex d IIC T4 Gb IP66 Ex tb IIIC T135°C Db IP66 Tamb -40/+60°C (-40°F / +140°F) EAC EX 1 Ex d IIC T4 Gb X Ex tb IIIC T130°C Db X, IP66 -40°C/+60°C Marine Certification: Lloyd's Register Marine Type Approval

## WAS WASHING SYSTEMS - ACCESSORIES

			WAS-WASPT	WASNX	WASEX
DTWRX		<b>Telemetry data receiver for wiper and washer remote control</b> Remote control of the wiper and the washer pump in the WASPT series RS-485 communication Remote controllable up to 1200m (3937ft) from the control keyboard	√	—	—
WASCAB		<b>Cabinet for WAS/WASPT (versions with 5m and 11m head pump)</b> AISI 316L stainless steel construction Dimensions: 403x568x354mm (15.8x22.3x14in) Suitable for: NXCOL, NXCW	√	—	—

## LED ILLUMINATORS

### GEKO IRH GEKO IRN

IP66

IP67

TYPE  
4X

IK10

GEKO is a range of latest-generation LED illuminators designed and produced by Videotec that provide excellent lighting for standard resolution and megapixel cameras. They are extremely reliable and robust.

GEKO illuminators light up an entire scene evenly, eliminating hot spots and areas of under-exposure for unrivalled night-time images and secure area surveillance.

The high efficiency heat sink body guarantees maximum duration of the LED and protection against overheating, while the window, in special technopolymer, offers high infrared transmission.

The line includes models with a wave length of 850nm, 940nm and white light and scattering angle of 10°, 30° or 60°.

# GEKO IRH, GEKO IRN

GEKO IRH		<b>LED illuminator</b> High efficiency ultimate SMD LED technology High efficiency heat sink body to ensure maximum LEDs durability Strong aluminium structure Beam patterns: 10°, 30°, 60° Wavelengths: 850nm, 940nm, white light Supply voltage: from 12Vdc up to 24Vdc or 24Vac Consumption: 6 W or 12W Adjustable built-in photocell VOLT free relay contact for external activation It can be mounted under a housing using the OSUPPIR bracket Supplied with a wall-mount bracket IP66/IP67
GEKO IRN		<b>LED illuminator</b> High efficiency ultimate SMD LED technology High efficiency heat sink body to ensure maximum LEDs durability Strong aluminium structure Vandal-proof protection (IK10) Supply voltage: 12Vdc, 24Vdc, 24Vac or from 100Vac up to 240Vac Beam patterns: 10°, 30°, 60° Wavelengths: 850nm 940nm, white light Consumption: 30W Adjustable light intensity Adjustable built-in photocell VOLT-free relay input for external activation VOLT free relay output for Day/Night camera Supplied with a wall-mount bracket IP66/IP67

## GEKO IRH - BEAM PATTERN AND ACHIEVABLE DISTANCES FOR ONE ILLUMINATOR

HORIZONTAL AND VERTICAL BEAM PATTERNS	MAXIMUM DISTANCE			
	850NM, LOW POWER	850NM, HIGH POWER	940NM, HIGH POWER	WHITE LIGHT, HIGH POWER
10°	100m (328ft)	140m (460ft)	100m (328ft)	–
30°	60m (197ft)	84m (276ft)	60m (197ft)	60m (197ft) <sup>1</sup>
60°	40m (131ft)	56m (184ft)	40m (131ft)	40m (131ft) <sup>1</sup>

<sup>1</sup> Achievable distances with camera in Day mode (colour image)

The distances and the performance depend on the camera/lens used and on the environmental conditions.

## GEKO IRN - BEAM PATTERN AND ACHIEVABLE DISTANCES FOR ONE ILLUMINATOR

HORIZONTAL AND VERTICAL BEAM PATTERNS	MAXIMUM DISTANCE		
	850NM	940NM	WHITE LIGHT
10°	240m (787ft)	140m (460ft)	–
30°	130m (427ft)	80m (262ft)	120m (393ft) <sup>1</sup>
60°	80m (262ft)	60m (197ft)	90m (295ft) <sup>1</sup>

<sup>1</sup> Achievable distances with camera in Day mode (colour image)

The distances and the performance depend on the camera/lens used and on the environmental conditions.

## GEKO IRN - BEAM PATTERN AND ACHIEVABLE DISTANCES FOR TWO ILLUMINATORS

HORIZONTAL/VERTICAL BEAM PATTERNS	MAXIMUM DISTANCE	
	850NM	940NM
10°	275m (902ft)	200m (656ft)
30°	165m (541ft)	120m (393ft)
60°	110m (361ft)	80m (262ft)

GEKO IRH - CONFIGURATION OPTIONS				
	BEAM PATTERNS	POWER	WAVELENGTH	
IRH	10 Narrow	H High power	8 850nm	A
	30 Medium	L Low power	9 940nm	
	60 Wide		W White light	

The version in white light (W) is only available in high-power (H) with 30° or 60° beam patterns.

The versions in 940nm are available in high power (H).

GEKO IRN - CONFIGURATION OPTIONS						
	BEAM PATTERNS	POWER SUPPLY	WAVELENGTH		VERSION	
IRN	10 Narrow	A 90-240Vac	8 850nm	A	S Single illuminator	00
	30 Medium	B 12-24Vdc, 24Vac	9 940nm			
	60 Wide		W White light			

LED ILLUMINATORS - ACCESSORIES			GEKO IRH	GEKO IRN
IRHPS		<b>Power supply module for GEKO IRH LED illuminator</b> Power supply: IN 230Vac 50/60Hz OUT 24Vac 30W or IN 120Vac 50/60Hz OUT 24Vac 30W IP66/IP67	√	—
LED ILLUMINATORS - BRACKETS				
OSUPPIR		<b>Bracket for 1 illuminator</b> In aluminium, painted with epoxypolyester powder RAL9002 For PUNTO, VERSO, VERSO COMPACT, HOV and HEG housings When installed under the PUNTO housing, this mount is compatible only in combination with WBJA or WBMA wall brackets	√	—

## CONTROL KEYBOARDS

**DCZ**  
**DCJ**  
**USB485**

Our keyboards control a wide range of switching devices and most of the speed domes and PTZs available on the market. In addition, the product range includes video transmitters/receivers via twisted pair cabling for video signals over long distances.

The DCZ keyboard comes with jog shuttle, joystick 38 backlit keys, alarm buzzer, and allows the management of CCTV applications from a PC, via USB connection.

Furthermore, the DCJ allows you to control up to 999 telemetry receivers, the preset and patrol functions together with the DTRX3.

The USB485 converter is suitable for connecting a DCJ Keyboard to a PC.

DCZ		<p><b>Universal keyboard for managing CCTV applications from PC</b></p> <p>USB keyboard for managing CCTV applications, with joystick and jog shuttle</p> <p>Functions determined by the controlled application</p> <p>Customizable features</p> <p>The user can easily personalize and print several pre-cut sheets supplied for this purpose</p> <p>The keyboard can be turned round so that both right- and left-handed users can use all the functions with ease</p> <p>HID Game Controller emulation for the use with the most important VMS (Avigilon Control Center, Ganz-VsolP, Exacq Vision, Milestone XProtect®, Genetec Omnicast 4.2, Mirasys-DVMS, Seetec ProBox, Sony-Real Shot Manager, Luxriot DVR)*</p> <p>*Functionality may be limited depending on the VMS used.</p>
DCJ		<p><b>Video and telemetry control keyboard</b></p> <p>Three axis proportional joystick</p> <p>Direct control or through Videotec matrix series SM of third parties products</p> <p>RS-485 serial communication with video matrix and multiplexer</p> <p>2 RS-485 independent telemetry lines</p> <p>RS-232 serial communication connection with PC for firmware update</p> <p>Up to 9999 video channels, 999 telemetry receivers on each telemetry line and 99 monitors</p> <p>More than 40 protocols supported</p>
USB485		<p><b>USB to RS-485 converter</b></p> <p>Suitable for connecting a DCJ Keyboard to a PC, it allows control of a PTZ unit directly from a PC</p> <p>USB 1.1 - 2.0 Full Speed compliant</p> <p>No external power supply</p> <p>ESD, EFT, Lightning protection at USB and RS-485 Data line</p> <p>Transmission speed up to 115.2 Kbps</p> <p>Driver supports: Windows Server 2008 / Windows Server 2008 x64 / Windows Vista / Windows Vista x64 / Windows Server 2003 / Windows Server 2003 x64 / Windows XP / Windows XP x64 / Windows 2000 / Windows 7 / Windows 7 x64 / Windows 8 / Windows 8 x64 / Linux</p>

## VIDEO MATRIX AND DISTRIBUTORS

**SM164B**  
**SM82A**  
**VD**

The system video matrix offers a solution to collect and manage images that are able to switch video inputs onto independent outputs with synchronised sequencing among the various monitors.

The SM164B matrix is a microprocessor remote-controlled video matrix which allows the video switching of 16 cameras on 4 outputs, while the SM82A switches 8 video inputs on 2 outputs. In case of alarm, the alarmed video input can be displayed on the video outputs. The alarm contacts are independent and configured as Normally Open (NO) or Normally Closed (NC).

The video distributor is used when it is necessary to distribute the same video signals to multiple locations.

SM164B		<b>System video matrix PAL/NTSC</b> 16 video inputs 4 independent video outputs with text generator Telemetry over the coax on the 16 video inputs and on auxiliary serial output (RS-485) Controllable by PC (RS-232) 16 alarm inputs, one output contact, trigger VCR and alarm reset 4 RS-485 serial inputs for max. 4 remote keyboards Privacy video masking function
SM82A		<b>Small Video Matrix PAL/NTSC</b> 8 inputs 2 independent video outputs Telemetry over the coax on the 8 video inputs and on auxiliary serial output (RS-485) 8 alarm inputs, 1 output contact, VCR trigger and alarm reset 2 RS-485 serial inputs for max. 2 remote keyboards Privacy video masking function
VD		<b>Video distributors</b> Versions with 1, 4, 8 inputs and 8, 16 outputs For colour or B/W video signals The input signal is amplified and distributed to the available outputs By means of VD816PR1 and VD48P1 versions, it is possible to select how many outputs can be associated to a video input

## VIDEO TRANSMISSION

**TWT2**  
**TWRB2**

Videotec video transmission devices comprise pair cable transmitters/receivers to send long-distance signals.

TWT2		<p><b>Outdoor active twisted pair video transmitter</b></p> <p>Transmission of B/W or colour video signal</p> <p>Small IP56 weatherproof box</p> <p>Maximum distance to the receiver: up to 1500m (4900ft) for colour video signal, up to 2000m (6900ft) for B/W with UTP cat.5 cable</p> <p>Protected from ground loops and over voltage</p> <p>Available version 230Vac (mod. TWT2A)</p>
TWRB2		<p><b>Outdoor active twisted-pair video receiver</b></p> <p>Reception of B/W or colour video signal</p> <p>Small IP56 weatherproof box</p> <p>Maximum distance to the transmitter: up to 1500m (4900ft) for colour video signal, up to 2000m (6900ft) for B/W with UTP cat.5 cable</p> <p>Protected from ground loops and over voltage</p>
